1. About this document

This document is deliverable D3.6 within work package 3 of the Horizon2020 funded *European Traveller Club* project, registered under number 636126.

This deliverable is part of work package 3 and is described in the Grant Agreement as “Franchise Contracts”. The franchise structure, as described in Deliverable 3.3, is used as a basis for this document. This document will be used to contract the participants of this ACCEPT (or ETC) scheme, the ACCEPT Scheme Participants.

1.1. ETC and ACCEPT

ETC is the (working) title for the ETC project. We have chosen the name ACCEPT for the Scheme to be introduced.

1.2. ACCEPT Scheme

The ACCEPT Scheme Manager determines – in a process that is in accordance with the ACCEPT Scheme governance – the minimum set of rules and regulations required to ensure cross-border acceptance of accounts and tokens; cross-border retail of mobility products and cross-border settlement between local schemes. Each of the local schemes is required – via its National ACCEPT Scheme Manager – to ensure that these minimum rules and specifications are adhered to and implemented.

Note that the role of the ACCEPT Scheme Manager is limited to what is required for the proper functioning of the ACCEPT Account-Based Ticketing System and interoperability between Local Systems to function properly, limited to acceptance of fare media and mobility products. Although the ACCEPT Scheme Manager should stimulate and foster account-based travelling as a whole, including cross-border journey planning, real-time passenger information etc., the scope of the scheme is mainly to enable cross-border payment and ticketing.

Article 2 – Services

- ACCEPT will provide the Service Agreed in accordance with the specifications as described in the Service Portfolio and the Franchise Framework (ACCEPT Scheme Document).

The reserve will be made up of the fees for the Agreed Service. ACCEPT is entitled to adjust the bases for the calculation of the rates as laid down in the Service Portfolio on this point.
- ACCEPT delivers the Agreed Service for which ACCEPT uses the ACCEPT System from the relevant Service Access Point. ACCEPT has no obligation to Participant and accepts no liability with regard to data flows relating to or related to an Agreed Service, once they have left the Service Access Point, or - in case the Participant sends or sends data to ACCEPT - that not yet reached the Service Access Point.
- Until the time of receipt by the ACCEPT System, the Participant bears the risk of losing data that he sends to the ACCEPT System. The participant also bears the risk of loss of the transmitted data from the moment of dispatch by the ACCEPT System. With regard to data sent to the ACCEPT System, the moment at which the data reaches the ACCEPT System is the moment at which the data have reached the Service Access Point. With regard to data sent from the ACCEPT System, the moment at which the data has left the ACCEPT System is the moment at which the data has left the ACCEPT System, being the moment at which these data have left the Service Access Point.
- Insofar as and for as long as the reception or dispatch by the ACCEPT System is not possible, the Participant or ACCEPT is not allocated the following:
 - o delay in the receipt, or delay in the transmission of the data referred to in Article 2.3 in the manner provided for in Article 2.4 by the ACCEPT System, and

The Participant will indicate within a reasonable period, or if applicable, within the term as stated in the ACCEPT statement, whether he wishes to purchase the Service Option thus offered, under the conditions stipulated. Article 8 applies to this.
- The Participant is aware that ACCEPT, if and in so far as it considers necessary, as a condition for offering a Service Option to an Agreed Service Form, that the Initial Service Period of the relevant agreed service form is extended, or that a new Initial Service Period commences with regard to that Agreed Service Form. ACCEPT will indicate in the statement as referred to in Article 2.9 whether and, if so, what modification of the Initial Service Period of the Participant is required.
